This article has been corrected: Due to errors during figure assembly, an accidental duplicate image of panel 4 in Figure 1F was inserted in panel 2 of Figure 1F. The corrected Figure 1F, obtained using the original data, is shown below. The authors declare that these corrections do not change the results or conclusions of this paper.

Annexin V

Figure 1: IL-17 inhibits apoptosis of MDSCs. MDSCs were isolated from tumor bearing mice and were then treated with different doses of IL-17. (F) Representative apoptosis analysis of MDSCs treated with IL-17 for 24 h by flow cytometry.
