This article has been retracted: This article contains duplicated images found in a previously published paper. Specifically, all eight panels of Figure 6A are duplicates of those in Figure 6A of a paper published simultaneously, both which are organized in a nearly identical way [1]. Additionally, figures 4F, 4H, 5D and 7C are duplicates of 4F, 4H, 5D and 7C from [1]. Two of the panels in 6A are also found in Figure 5B of an earlier paper [2]. The data and comments provided to Oncotarget did not resolve the concerns about the integrity and reliability of the reported data. Therefore, with the agreement of all authors, the Scientific Integrity office at Oncotarget has decided to retract this paper.
