This article has been retracted: The University of North Carolina at Chapel Hill conducted a research misconduct proceeding that involved this article and concluded that research misconduct occurred, specifically the falsification with reuse of western blot bands from different experimental conditions in Figures 1E and 3D; and falsification with reuse of immunostained images from different experimental conditions in Figures 2C and 5G. Therefore, the results and conclusions of this publication are no longer reliable. The authors requested the article retraction. Consequently, the Editorial decision has been made to retract this article. All authors agree with this decision, with the exception of Dr. Haifeng Qiu and Dr. Jing Li, who did not respond.
